Sep 19, 2012 In Ableton there is also the ability to set a custom location for your plug ins folder.. This is handy if you have multiple DAWs installed on the same Mac, or if you just want to use a different hard disc, perhaps a solid state to run them from.. VST and AudioUnits (AU) are the two native plugin formats for Mac OS X Although there are other DAW specific formats for plugins, VST and AudioUnits are more common and compatible across various DAWs like Cubase, Logic, etc.. Ableton Live Plugins DownloadAbleton Live Mac SerialDelicious Audio Software and Plug-insProducts Internet Radio BroadcastingRocket BroadcasterInternet radio broadcast encoder.. These files should not be moved Instead, a WaveShell is placed in your host application's plugins folder.. If you have created a number of sub-folders, just hold the Clip for a few seconds on the Clip folder.. To save a Clip just drag it onto the Clips folder in the User Library (or any other folder).
